

STONE COATED TILES

Space Mabati proudly offers three premium stone-coated roofing tile profiles: Classic, Milano, and Shingle. Each is crafted from high-grade Alu-Zinc or galvanized steel, coated with natural volcanic stone granules and sealed with durable acrylic layers. This delivers timeless elegance, exceptional weather resistance, and long-term performance tailored to Kenya's climate – heavy rains, intense UV, strong winds, and humidity.

Key Features & Benefits:

- **Exceptional Durability & Longevity:** Up to 50 years lifespan (with strong warranties often 30–50 years); Alu-Zinc base resists corrosion 6–9 times better than standard galvanized steel; stone granules protect against fading, cracking, and UV degradation.
- **Superior Weather Resistance:** Handles extreme conditions – high winds (up to hurricane levels in tested profiles), hail impact, fire (Class A rated), and heavy tropical rain without rusting or leaking.
- **Noise Reduction:** Stone coating absorbs rain impact sound – much quieter than plain mabati during storms.
- **Thermal Comfort:** Excellent heat reflection and insulation – keeps interiors cooler in hot Kenyan days, reducing energy costs for fans/AC.
- **Lightweight Design:** Only about 1/6 the weight of clay/concrete tiles (typically 5–6 kg/m²) – easier/faster installation, lower structural load, reduced labor costs.
- **Aesthetic Appeal:** Mimics classic clay tiles, shakes, or shingles; rich, non-fading colors (e.g., red, brown, grey, green, black) with textured stone finish for premium curb appeal.
- **Low Maintenance:** No painting needed; self-cleaning in rain; resistant to moss/algae in humid areas.
- **Eco-Friendly:** Recyclable materials; natural stone chips; energy-efficient (lower cooling needs).

Overall length	1340mm
Overall width	420mm
Length of cover	1280mm
Width of cover	375mm
Roof cover/tile	0.473m ²
Tiles/m ²	2.1

Standard Specifications

- Sheet size: 1340 × 420 mm (covers ~0.5 m² per tile)
- Thickness: 0.25–0.5 mm steel base
- Coverage: ~2 tiles per m²
- Colors: Wide range of rich, fade-resistant shades
- Accessories: Matching ridges, valleys, flashings, and screws

Applications

- Upscale residential homes and gated communities
- Villas, apartments, and luxury developments
- Hotels, lodges, and commercial buildings seeking premium look
- Renovations where aesthetics and longevity matter

Classic

Milano
